### What's New in the?

If your PC is running windows 11 or 10, and you're looking to upgrade it to windows 10 or 8.1, it's smart to know if your PC is compatible with windows 11 or not. If your computer is showing windows 8 or 8.1 compatibility icon, you may be able to check to see if your computer is compatible with windows 10 by visiting this link. Custom Menu Description: With Custom Menu, you can create a shortcut of any process you want to execute. This is a great feature to be able to quickly access applications or even run them directly from the desktop. You can include as many shortcuts as you want, but also you can create a shortcut for each file/folder/document you want to include. Custom Menu provides a clean, yet simple user interface to create shortcuts and add them to your Desktop. The user interface of Custom Menu includes the standard desktop icons like Run, Open, Minimize, Restore, Close, etc. Custom Menu also comes with a preview window where you can see the command you want to include in the shortcut. Before hitting the 'Add' button, you need to write down the required command on a notepad and then import it. This way, you will only have to include the command, but with Custom Menu, you don't need to know the path. Just import the command as you see fit in the program. You can also edit the title of the shortcut. You can now click on the 'Add' button to create the shortcut on the desktop. The icon displayed on the desktop is that of the program, so it provides a good chance of finding your shortcut. Custom Menu includes the ability to drag/drop shortcut. You can run the processes quickly, with the single click of a button. Custom Menu also makes it possible to create a desktop icon, with the name of a process or program you want to include. You can add up to 10 shortcut to the taskbar, simply by including their name in the 'Add Shortcut to Taskbar' window. Custom Menu offers a preview window before including the command, to let you check if you spelled the process correctly. Custom Menu also includes the ability to drag and drop shortcuts. Automatically added shortcut to the taskbar This allows you to add a shortcut to the task
